Potsdam, September 20 th, 2018

The Montessori School Potsdam is looking for a new Headmistress / Headmaster from February 2019.

The Montessori School Potsdam is a public school for children and adolescents aged 6 to 16 years. The school`s employer is the state of Brandenburg and the city of Potsdam. Approximately 500 children and adolescents from the first to the tenth grade learn and work here under the guidance of 50 teachers in an inclusive and innovative school environment.

The Project method and the Montessori method have been linked for many years and give the school a unique profile. Verbal assessments in place of numerical grades up to grade 9, mixed - age learning groups (1/2/3, 4/5/6, 7/8, 9/10) and heterogeneous achievement groups form the basis of the school concept. Combining theory and practice in the school and at non-formal learning places - also in a rural youth school for 12 - 14 year olds - is one of the main concerns of collegial cooperation.

For their innovative achievements, the Montessori School Potsdam was awarded the German School Prize by the Robert Bosch Foundation. We are looking for a dedicated educator with experience in school development, lesson development and leadership. He or she should have a particular interest in the current international standards of school development, as e.g. the German School Academy (Deutsche Schul Akademie DSAD) identifies. The staff and the parents of the school wish after 25 years of work and a high acceptance of the achievements , to work on a permanent development of the school project. The further cooperation in the school's networks (Potsdam schools, "view over the fence" schools (Blick über den Zaun) and school prize schools in Germany, European Erasmus projects and worldwide Changemaker Ashoka schools) is an important concern of the school community.

In the near future the Montessori School wants to focus even more on topics like well - being and international cooperation. We offer a highly motivated teaching staff in a very well - known and recognized school. The location of the school in the historic city of Potsdam and in the immediate vicinity of the famous Park Sanssouci is outstanding. The center of Berlin can be reached by regional train within 30 minutes. The position is assigned to grade A15 (Brandenburg salary law) for civil servants or salary scale 15 (collective agreement of the federal states) for salaried employees. Further Information can be obtained from the
